We recommend, in addition to our instructions for maintenance, to consider carefully the demands of EN 1176-7

0-43129-000 K&K Rotating squirrel (0,45) with depth anchorage

One-time maintenance

Check all screw connections; if necessary screw down again.

one-time only
approx. 4-5 weeks after installation

Recommendations about regular maintenance

Check cleanliness of play- and safety area, take out alien elements

Check stability of vertical posts, tighten bolt-connections if necessary

Check other component elements for wear and tight connections, tighten connections and replace defective elements if necessary

Check bearings and/or joints for tight fixing and easy-running function

Check rubber granulate covering for wear, replace if necessary

Check foundation, foundation anchoring and whole construction for corrosion or decay, repair or replace if necessary.

Please note:

The mentioned maintenance intervals are a recommendation only. They have to be adjusted to the needs and circumstances of a certain playground (e.g. due to the frequency of use, social facilities and vandalism problems etc.)
