### Beetle.01

Urban Design Playpoints are climbers or rockers or twisters. They are Playpoints first and foremost, but they are also very nice pieces of public design, and they are sculptural. All URBAN DESIGN Playpoints are high-end engineered units made from high-quality materials like stainless steel with a brushed finish, powder coated recycled aluminium connectors, high density polyethylene (HDPE)

panels and ITR-bearings for maximum safety and durability.

Beetle.01 impresses with its elegant design and technical superiority. A special rubber bearing element prevents a hard stop and thus ensures a smooth rocking experience. Beetle.01 moves quickly to the right and left!
